# Principal's Message

The Seniors of Fergus County High School have reached another milestone in their lives. The road ahead is a rugged one. Many problems of many kinds will face each and every member of the class. They have been preparing, for the past twelve years, to solve those problems as they come to them. How they solve them will determine whether they will become a failure or a success. Many times they will come up with the wrong answers; but if they are properly prepared, those wrong answers can become stepping stones rather than stumbling blocks on the road to a successful and happy life. Each senior should remember that his problems are his opportunities.

W.G. RAFTER

#### DO YOU STILL BEAT RUGS AT YOUR HOUSE?

Few students probably even know what we're talking about when we ask, "Do you still beat rugs at your house?" But ask someone, some man - perhaps your Dad or a neighbor. He'll know.

Rug-beating used to take place about twice a year, in the fall and again in the spring. Mother usually directed the operation, which was untidy. Really, it was a mess. Tempers flared and usually the young sters of the household beat the rugs with a vengeance. They took out their ire on the rug. Whaled the daylights out of it.

The idea was to get the rug clean. It worked, but the effort wore out the rug and the boys.

Today electricity cleans our rugs. It cooks our meals. It freezes our food. It whirs our fans. It turns the factory wheels. It lights our lamps. Electricity lightens all our burdens.

The men and women of the electric industry, using foresight and ingenuity to produce, transmit and distribute electricity, have done much for Montanans. Abundant electricity will continue to enrich the daily lives of the people of the Treasure State and help them produce more. We're planning and building now for your tomorrow.

You can count on us.
